

If you're involved in a motor vehicle accident...

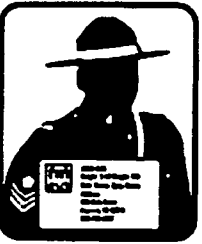

Here's what you should do:

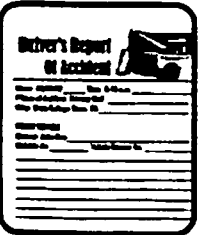

1 Take precautions necessary to protect the scene of the accident from further accidents. (Always use your vehicle's 4-way flashers. Reflectors and flares at night give added protection.)

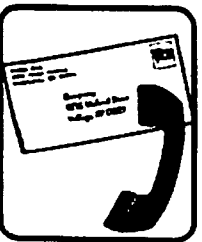

2 Call police. If someone is injured, request medical assistance. If fire is involved, request Fire Department aid. (Help can be summoned by cell phone, CB radio or a passing motorist.)

3 Be courteous. Answer police questions. Give identifying information to the other party involved, but make no comments about assuming responsibility.

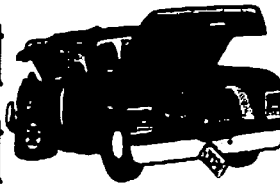

4 Complete both sides of the DRIVER'S REPORT OF ACCIDENT. You will need this information later for state and insurance reports. Keep a copy of the police report.

5 Report the accident as soon as possible to the auto rental dealer.
